

**FUN AIR<sup>®</sup>**

# We Don't Make Yachts. We Make Yachts Fun.™

Fun Life - that's what we aspire to at FunAir®. We believe in spending time outdoors with family and friends laughing, smiling and having fun.

Driven by this passion, we've created hundreds of custom-designed inflatable yacht toys for super yachts across the globe.

Our products are engineered to fit your yacht perfectly and will turn her into the epicenter of fun!

# We Make Toys for Your Toys.™

Innovation, Quality, Fit and Finish are the foundational pillars of FunAir®. Our team has the attention to detail that captains and owners expect. Let us amp up the level of Fun on your Yacht.

FunAir® builds the finest and widest range of inflatables that can be themed to match your yacht livery with your yacht's color scheme and logo.

YACHT SLIDES

## We Make Fun Out of Thin Air.

FunAir® specializes in slides. We've built hundreds of them over the years, offering custom sizes, colors, logos, and designs built to exact boat specifications, ensuring your yacht slide integrates seamlessly with your boat.

Our designs include Bow Mount, Curved, Riser, Self Lifting, Hanger, and Stern slides.

## YACHT SLIDES

# We're Focused on Features.

Patented innovations, such as RapidFlate™, inflate products 6x faster than traditional inflation methods.

Purposely designed D-Ring locations, lifting handles, and reinforced crane straps ensure lifting and tying off slides are easy and safe.

Hot air welded double T-strip seams deliver the strongest seam technology.

Our slides use the highest quality UV protected slick vinyl that allows a faster descent for riders.

All slides include an integrated water distribution system.

## CLIMBING WALLS

# Come Climb our Walls.

FunAir® was one of the first to market with custom designed inflatable climbing walls and has custom fitted some of the largest yachts in the industry.

Designed to fit seamlessly on your boat, our climbing walls can include jumping platforms, auto-belay systems, custom heights and widths, and custom boat logos and colors.

Select between a deck entry or water entry. The deck entry climbing walls have a jumping platform with non-slip material to give guests a safe way to reach the top and jump off.

## CLIMBING WALLS

# We Make Scaling Safe and Easy.

Our climbing walls come with sturdy knotted climbing ropes and comfort-grip handholds, which make them easy to grab with both your hands and feet. Optional auto-belay connections are also available for ultimate safety.

Each climbing wall includes a RapidFlate™ blower (when appropriate) and a FunAir® electric pump.

## BIGAIR BLOB

# Catch Some Serious Air with this Jump Shot.

The FunAir BigAir blob is an exhilarating, hair-raising flying-through-the-air experience that will leave you breathless. Purposely engineered for yachts, this blob has side stabilizer outriggers to handle ocean waves and a fitted cradle to keep the blob safely away from the edge of the boat.

The Blob comes with our patented RapidFlate™ for 6x faster inflation and deflation.

## PERSONAL WATERCRAFT DOCKS

### Park It Here.

Personal Watercraft (PWC) Docks give your yacht a safe place to park your toys, whether it's a Sea Bob, Jet Ski or Tender or Sail boat. These inflatable floating docks protect your guests, yacht, and watercraft. We offer both Simple and Convertible PWC Docks made of drop stitch or PVC material.

## PERSONAL WATERCRAFT DOCKS

# Reserved for “Whatever Floats Your Boat”

Both Simple and Convertible PWC Docks can be custom designed to fit your yacht’s transom.

Convertible PWC Docks are available with interchangeable inserts for SeaBobs, Jet Skis, a Lagoon Pool with netting, or a Work Platform for additional space to work and play.

Our optional patented SeaStairs™ truly innovate how guests get out of the water onto the PWC Dock. Simply stand up and walk out of the water onto the inflatable. These SeaStairs™ can be attached to a wide variety of FunAir® products.

## Bounce. Pounce. Play. Repeat.

Our Inflatable Floating Playgrounds and Bouncers are a great way for your guests to busy themselves on the water for hours. Once the heart-pumping fun is done, these toys make great lounging platforms for continued sun time.

Playgrounds include a climbing tower and a slide. Both playgrounds and bouncers can be equipped with our patented SeaStairs™ to make entry and exit into the water safe and easy.

Conveniently designed in separate pieces, they're easy to set up and store when not in use.

## FLOATING LOUNGERS

# Spend a Day On Paradise.

Get ready to relax. Our floating loungers are made for parties big or small and can also be custom designed.

We have two models made for larger groups - the Floating Island and Floating Oasis. Each can seat 6-8 guests, offer a splash pool in the center and have plenty of room for a cooler and whatever else you might need while enjoying the ocean.

The Floating Island has 6 detachable inflatable chaise loungers that can be redeployed to the beach if digging your toes in the sand is more your style.

## BEACH LOUNGERS

# It's Okay To Lounge Around All Day.

Take a load off and catch some rays with these inflatable loungers, great for the boat or beach. Equipped with D-rings for anchoring on a boat, sand, or a FunAir® floating Island, these loungers are sure to stay in place on a windy day.

Add a luxurious, soft, custom made lounge cover in your yacht colors and monogrammed with your yacht name. Easy to transport on a tender or store on your yacht, these loungers pack up into very small packages and inflate/deflate quickly.

## SEA POOLS

# Dip Into an Aquarium.

FunAir® inflatable pools are a safe and comfortable way to enjoy your day swimming in the ocean. Designed with either PVC or Drop Stitch materials, these pools provide protection from jellyfish with netting and an enclosed area to prevent guests from floating away in the current.

We offer a variety of pool configurations to fit the back of your swim platform or alongside your yacht and splash pools for the little ones on the ship's deck. We even offer pool fillers that can create a usable lounging space. All sea pools come with swimmer assist grab handles and ropes.

## JOUST

# Ready. Set. Joust.

Host the ultimate guest or crew competitions with the Inflatable Water Joust. Proclaim dominance by knocking your opponent into the water and off the joust beam.

Gain easy access onto the joust with well placed handles, steps, non slip material, and beach entry netting. Joust poles include comfort grip handles for your guests.

## A Good Time is Par for the Course.

The FunAir floating Yacht Golf green is a great way to keep your skills sharp and have friendly competitions between guests. Have fun shooting at multiple greens anchored at various distances while using the environmentally friendly albusgolf ECOBIOBALL.

Fast and easy to deploy, the golf green is equipped with a standard size flag pole and FunAir flag, quick dry netting to catch golf balls when the target is hit, and D-rings for anchoring.

OUTDOOR PURSUITS

# Have Fun with No Strings Attached.

FunAir® offers a wide variety of custom products to round out your yachting experience.

Build your fleet with our Water Mats, Kayaks and SUP's, which can be designed to match your yacht livery with custom logos, colors and messaging. Water Mats pack tight and easily store on your boat, so bulky transportation is no longer an issue.

# We've Decked the Decks with M/Y Sai Ram.

No two yachts are exactly alike. So why should their inflatable packages be any different? Whether it's custom-made slides, climbing walls, docking stations, or an array of outdoor pursuits, FunAir® builds the widest range of world class yacht inflatables that can be uniquely and undeniably yours.

If you've got an idea for an inflatable, we can make it happen.

## We've Tested the Waters with M/Y Lazy Z.

Designing world-class products requires world-class partners. That's why FunAir® has joined together with M/Y Lazy Z to create the industry's first prototype partnership. Patented products such as a RapidFlate™, SeaStairs™ and BigAir have made their debut here.

Captain Rewi said it best, "Lazy Z's partnership with FunAir® for prototype testing really shows they care about producing products that meet yacht owner and crew needs."

M/Y HELIOS

"Our slide is unique, designed specifically to our needs. The guys at FunAir® are custom specialists, and your next toy is only limited by your imagination."

- Phillip Atkinson, Chief Officer

M/Y ASTRA

"If impeccable client service and great product backup are important to you, use these guys."

- Trevor Ohlssen, Captain

M/Y BALISTA

"Over the years I have looked at slide options quite a few times but have never managed to find the 'right' product.

FunAir® was different from the start.

Their product looks clean and simple and their service is designed to ensure that every slide is a success."

- Mike Wyer, Marine Manager

"This year has been one of the worst years on record for the Irukandji jelly fish. The FunAir® improvement to the Sea Pool netting has provided us with the confidence to swim."

- Scott Parks, Owner

M/Y PARKLANE

M/Y ILLUSION

"It's great working with the whole FunAir® team designing custom inflatables. If we had more space onboard we would have had way more inflatables. Great products!!"

- Chief Mate Vriesendorp

M/Y LAZY Z

"Being the first yacht with a new inflatable design is always a nice thing. It's fun to think outside the box with FunAir and come up with ideas for new inflatables."

- Captain Rewi
