CUSTOM WEAR

One of our most successful offerings are the unique custom designs we're able to create for special events, both on-board and off. We can tailor-make outfits to suit any requirement, no matter the colour or fabric requested.

We've dressed the teams of various international yacht shows, carefully considering factors such as temperature, colour combinations and individual stylistic approaches.

Our true versatility can be seen in our evening range, suitable for high glamour events such as festivals or awards ceremonies. No fabric, however rare, is unobtainable, and we've created outfits in the finest silk and other precious materials.

We also offer a design consultancy service drawing together our talented and professional collaborators, who are able to meet any special request.

Our extensive experience in this tailor-made field has seen us supplying uniforms of our own design to clients, who request something more extraordinary. We're always able to include a yacht's logo and colour scheme, whatever it may be. Our warehouse is well stocked with a wide range of fabrics, but we also have a reliable network that ensures a quick turnaround, even should your choice be a rare material.

We're able to dye fabrics to any colour required and in addition, can provide logos be they in traditional custom embroidery, four-colour screen printing or any other printing techniques.

If you would like to learn more we would be delighted to hear from you. Just drop us an email at uniform@floatinglife.com.

It's our absolute pleasure to provide our clients with total satisfaction every time.
